DETAILED ACTION

1. The Preliminary Amendment filed on November 27, 2000 has been entered.

Election/Restrictions

2. Applicant's election of Group IX in Paper No. 7 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
3. Claims 1-10, 12 and 15-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected Groups, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7 for the reasons stated *supra*.

Drawings

4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "S1" has been used to designate both "sheets 1" and a "step" (Figs. 1 and 7) and "S2" has been used to designate both "sheet 2" and a "step" (Figs. 1 and 7). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
5. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: "S21" (Fig. 9) and "S59" (Fig. 13). A proposed drawing correction, corrected drawings, or

Art Unit: 3724

amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

6. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "S24" (p. 57, l. 21). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

7. The disclosure is objected to because of the following informalities:
- i. P. 20, l. 23, the term "stable" should read -- staple --.
 - ii. P. 23, l. 4, it appears that reference "34" should read -- 24 --.
 - iii. P. 37, l. 23, the term "dices" should read -- dies --. The same applies to all instances of the term "dices" in the specification. Note e.g., p. 43, l. 7.

Appropriate correction is required.

8. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Art Unit: 3724

9. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

10. Claims 11, 13, and 14 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Yamauchi et al. See whole patent.

Conclusion

11. Miyazaki et al, Takaishi et al, Shinno et al, and Blaser are cited as pertinent art.
